Work History

2023-06 - 2023-07

Web Developer Internship

Sandman Media, Vancouver, BC

- Built web pages using a CMS, utilizing HTML and CSS to ensure optimal design and layout across different devices and screen sizes.
- Utilized JavaScript to implement interactive features and functionality, such as API calling and smooth animations.
- Created CMS components and modules using PHP, to enhance the efficiency of development process.
- Collaborated with designers and developers to refine designs and achieve user-friendly websites.

2017-04 - 2022-08

Software Developer

Murata Machinery, Ise, Mie, Japan

- Designed and developed large-scale C++ applications.
- Developed unit test cases for testing and automation.
- Analyzed existing software implementations to identify areas requiring improvement.
- Supervised work of programmers and designers, assigned tasks and reviewed deliverables.
- Communicated with clients and local workers to solve problems.

Education

2023-01 - Current

Diploma: Web Development

Cornerstone College - Vancouver, BC

2013-04 - 2017-03

Bachelor: Computer Science and Engineering

Kyoto Sangyo University - Kyoto, Japan
